

# Clutch Spotlights Banyan Labs as a Leading Social Impact Organization

Banyan Labs is a team on a mission to provide second chances. Headquartered in Memphis, Tennessee, our team employs 100% justice-impacted individuals and professionals that want to make a difference. We build top-notch end-to-end solutions that help businesses accelerate towards their goals. We handle projects that allow both us and our clients to leave lasting, positive social change.

Known for its collection of verified client testimonials, Clutch is a Washington DC-based platform that encompasses different B2B industries and locations. The platform allows millions of browsers to find out more about trusted agencies and companies for their unique needs. The reviews earned by vendors are the basis of their rankings, ratings, and recognitions.

Clutch's esteemed certification program is aimed at empowering socially and economically disadvantaged companies. The said program recently added new categories aside from minority-owned and LGBTQ-owned companies. Firms that want to be ranked among Clutch's list of social or environmental impact leaders must prove their focus on making great contributions.

It's an extremely exciting moment for us to announce that Banyan Labs has been ranked on Clutch's list of the top [social impact companies](#) in the United States for 2022!

When we started this company, we kept thinking about how convictions and prison change the lives of individuals — having a record, living through stigma, and struggling to restart life. We know we wanted to not just show but also play a role in supporting those affected by the change. Since our inception, we've made great strides to make sure that we're fulfilling our mission.

Receiving a certification award because of our mission feels surreal. We are incredibly grateful and proud to have this honor. Banyan Labs dedicates this honor to our fantastic clients, stakeholders, and teammates. Thank you for being part of our story and journey for positive change!

Our story wouldn't be possible without the projects entrusted to us. We'd also like to take this opportunity to express our appreciation for our clients who put their confidence in us. We are privileged and delighted to have you as our partners.

Be involved. Be part of broader change. [Connect with Banyan Labs](#) and let us know how we can work together. Discuss your project with us and get a free quote.
